

# DAVORCOIN

"The arrival of electronic currencies could revolutionize the way we pay for goods and services, in much the same way as the Internet shook up how we access information."

**Bank of England**

## What is DavorCoin and how it works ?

DavorCoin is a new cryptocurrency which aims to become the best alternative to current popular coins such as Bitcoin and Ethereum.

It is a form of digital public money created by complex mathematical computations and validated by millions of computer users.

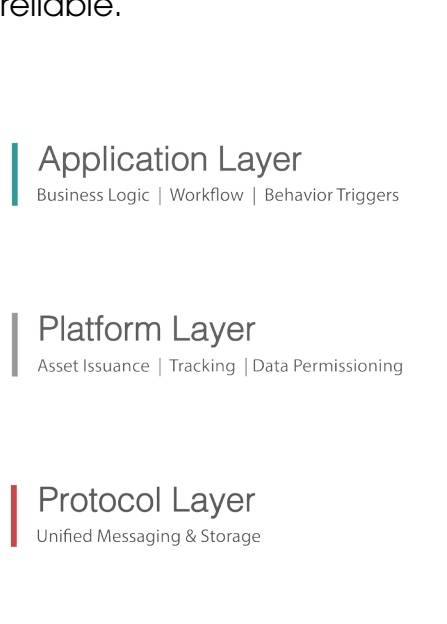

You can store DavorCoins on your computer drive, smartphone, hardware wallet or somewhere in the cloud.

Once you own DavorCoins, they behave like physical gold coins: they possess value and can be traded like stocks in popular exchanges. In the future you'll be able to use them to purchase goods and services.

## Why DavorCoin ?

DavorCoin has been created by bankers and traders from major financial places (London, Paris and other EU cities) working in investment banks and hedge funds.

We realize the financial transactions in the world are going to be revolutionized by cryptocurrencies and blockchain technology.

As a result, we've built a tech and financial team to create a platform to make worldwide financial transactions faster, cheaper and more reliable.

## Why invest in DavorCoin during the ICO?

Cryptocurrencies are at its beginning. Imagine if you had the opportunity to invest in Facebook, Google... at its beginning, you would be millionaire by now.

It's not a coincidence that Goldman Sachs (the most famous investment bank in the world) is building a trader team on cryptocurrencies.

Cryptocurrencies give you a great opportunity to invest in a field that is revolutionizing the world. Those who invest very early will likely be very successful, like the ones who did with Internet companies.

Bitcoin price was \$0.003 in 2010 and is above \$600 today. If you invested only \$100 in 2010 in Bitcoin, you would have \$200,000,000 in your wallet today!

With DavorCoin, you have the opportunity to be part of the adventure from the beginning when its price is still very low.

## Initial Coin Offering

Davor crowdfunding round will be launched on November 6, 2017, which will feature the public sale of DavorCoins. The maximum supply of coins will be 6 million and they will be available at the rate of 1.2 USD per 1 DavorCoin. Discount rates will be applied for early participants: 40% for the first 3 days, 30% for the second 3 days, 20% for the third 3 days and 10% for the fourth 3 days. After 30 days, the crowdsale will end. The coins sold will be distributed to the registered wallet addresses of the participants within three days.

During the ICO, the minimum purchase amount per user is 100 DAV. The maximum purchase amount per user is 50,000 DAV.

The crowdsale will start at 16:00 Greenwich Mean Time (GMT) on November 6, 2017

## Lending program

You can invest your DavorCoins to receive a daily interest. The interest per month is up to 48% of your lending amount. The more you put in the lending platform, the better interest rate you get. Optionally, you will be able to lock your DavorCoins for an additional period to boost your daily interest.

Lending Amount	Interest (Accrued Daily)	Capital Back
\$100 - \$1000	Daily Variation Rate	After 299 Days
\$1001 - \$5000	Daily Variation Rate + 0.10%	After 239 Days
\$5001 - \$10000	Daily Variation Rate + 0.20%	After 179 Days
\$10001 - \$25000	Daily Variation Rate + 0.25%	After 119 Days
\$25001+	Daily Variation Rate + 0.35%	After 89 Days

## Coin staking

You can simply stake your DavorCoins in the wallet to earn new DavorCoins. This is based on the Proof-of-Stake (PoS) mechanism. It happens with a miner locking up an amount of their coins in his wallet to verify a block of transactions. The cryptographic calculations in PoS are simpler than those in PoW: you only need to prove you own a certain percentage of all coins available. For instance, if you own 1% of all DAV, you'll be able to mine 1% of all transactions across DAV.

Period	Interest Rate
First Year	10% Per Month
Second Year	8% Per Month
Third Year	5% Per Month

## Q & A

**Q:** Is this a legit project?  
**A:** A lending project is usually considered risky. Any person who would like to participate needs to understand the risks. However, Davor.io is not involved in any illegal activity. We aim to create a solid platform which could bring values to all participants.

**Q:** Is this project originated from France or Europe?  
**A:** Our core team members are mostly bankers and engineers from EU countries. Due to tax and regulation risks about cryptocurrencies in some countries, we cannot officialize our domiciliation. If you're in Paris, London, Geneva ou Monaco, you could drop us an email to [support@davor.io](mailto:support@davor.io) to request an appointment with us.

**Q:** Can I become a promoter of the Davor project?  
**A:** Yes you can. Please send us an email to [platinum@davor.io](mailto:platinum@davor.io) and tell us more about you. We're pleased to offer Platinum members significant bonus and benefits.

**Q:** Does the name Davor mean something?  
**A:** No it doesn't.
